## RESEARCH-BASED DESIGN AND PRACTICES

### LEARNING BY DOING/AUTHENTIC PRACTICE

- Intensive practice facilitating and participating in collegial feedback
- On-going implementation of practices learned with support
- Action-oriented to impact own students' outcomes

### LEARNING IN A COMMUNITY OF PRACTICE

- Small 'home' groups to allow critical feedback and support
- Develop dispositions to appreciate diverse perspectives
- Hone collaboration skills to build norms of trust and excellent communication

### PERSONALIZED LEARNING

- Guided by facilitative leadership competencies
- Leverages individual expertise to accelerate areas of growth
- Focus first on own dispositions/practices to foster in others
